

PRESS RELEASE

GROWER REGISTRATION AND LICENSING FOR THE 2021/2022 SEASON

The Tobacco Commission (TC) would like to inform all tobacco Growers and Grower Associations that registration of growers for **2021/2022** season starts on **Monday, 28th June, 2021** in all the Commission's Divisional offices. Growers willing to grow and sell tobacco are advised to license with the Commission before the closing date of **30th September 2021**.

Growers are being informed that it is an offence under the Tobacco Industry Act, to grow tobacco without a license. Preparations for Tobacco Growing Season starts with registration. After registration, growers properly plan for the season based on allocated and licensed production quota.

The Tobacco Commission (TC) is, therefore, advising all Malawians, interested to grow and sell tobacco in the forthcoming season, to go to the Commission's Divisional offices of Limbe, Lilongwe, Kasungu or Mzuzu for registration.

The Commission is urging tobacco growers to register and produce compliant crop which shall be competitive on the global market.

Looking forward to a successful **2021/2022** Tobacco Growing Season.
